

Service Budget Parameter

FY26/27

Service Cost Center Planning

For all Service Cost Centers please enter the following data besides the requirements from 6CO2:

- staff costs
- non-personnel costs
- depreciation
- FTE (*Full time Equivalent*)

additionally

- EAT (*Employee attendance time*)
- Productive hours (for all Technician Cost Centers)

The cost and productive hour plan is the basis for your planned hourly rate (tariff) for next Fiscal Year.

To enter the productive hours in SAP please approach your counterpart from 6CO2 or reach out to Service Controlling in 6CO1B.

Tariff submission

The activity type / tariff submission will remain as in the previous year's separately according to the template from 6CO1B which will be sent out at the end of April with further details.

Basis for the tariff is the hourly rate from your Cost Center plan.

The template needs to be returned to Service Controlling with cost center / activity type / tariff information latest until **June 5th 2026**.
